Leadership MPa

“

IT'S NOT WHO I AM UNDERNEATH,
BUT WHAT I DO THAT DEFINES ME.

- BATMAN

INDUSTRY IMPACT

SOCIAL IMPACT

“

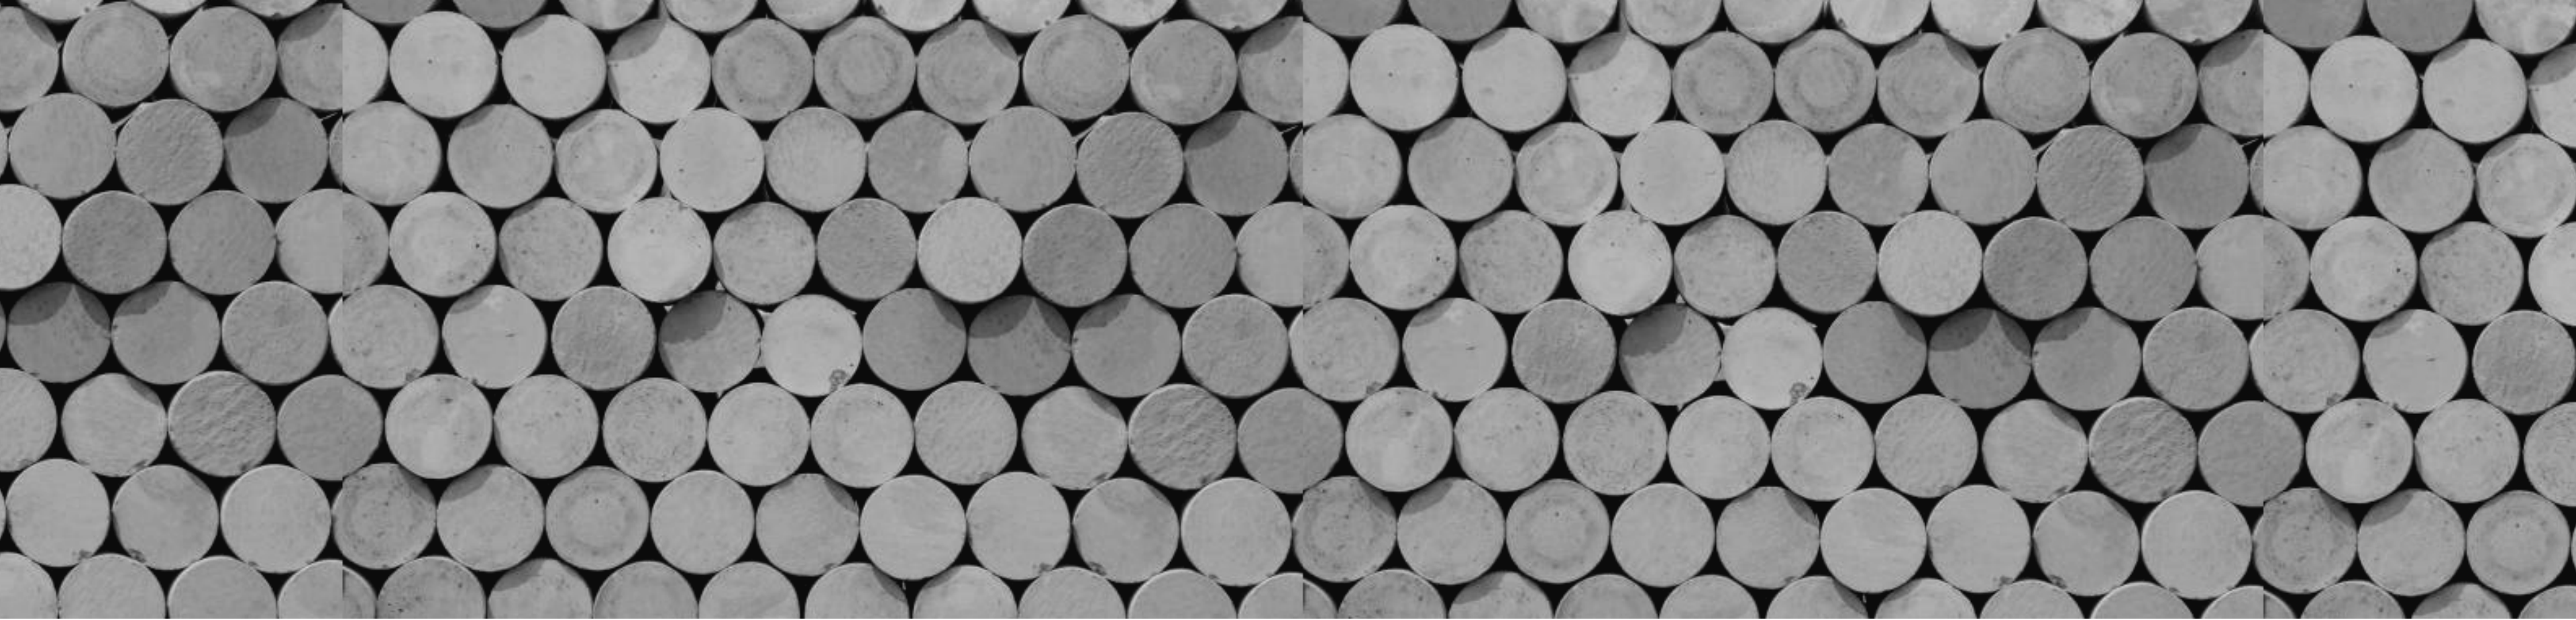

“LEADERSHIP IS THE ART OF
GETTING SOMEONE ELSE TO
DO SOMETHING YOU WANT
DONE....

...BECAUSE THEY WANT
TO DO IT.”

-DWIGHT D. EISENHOWER

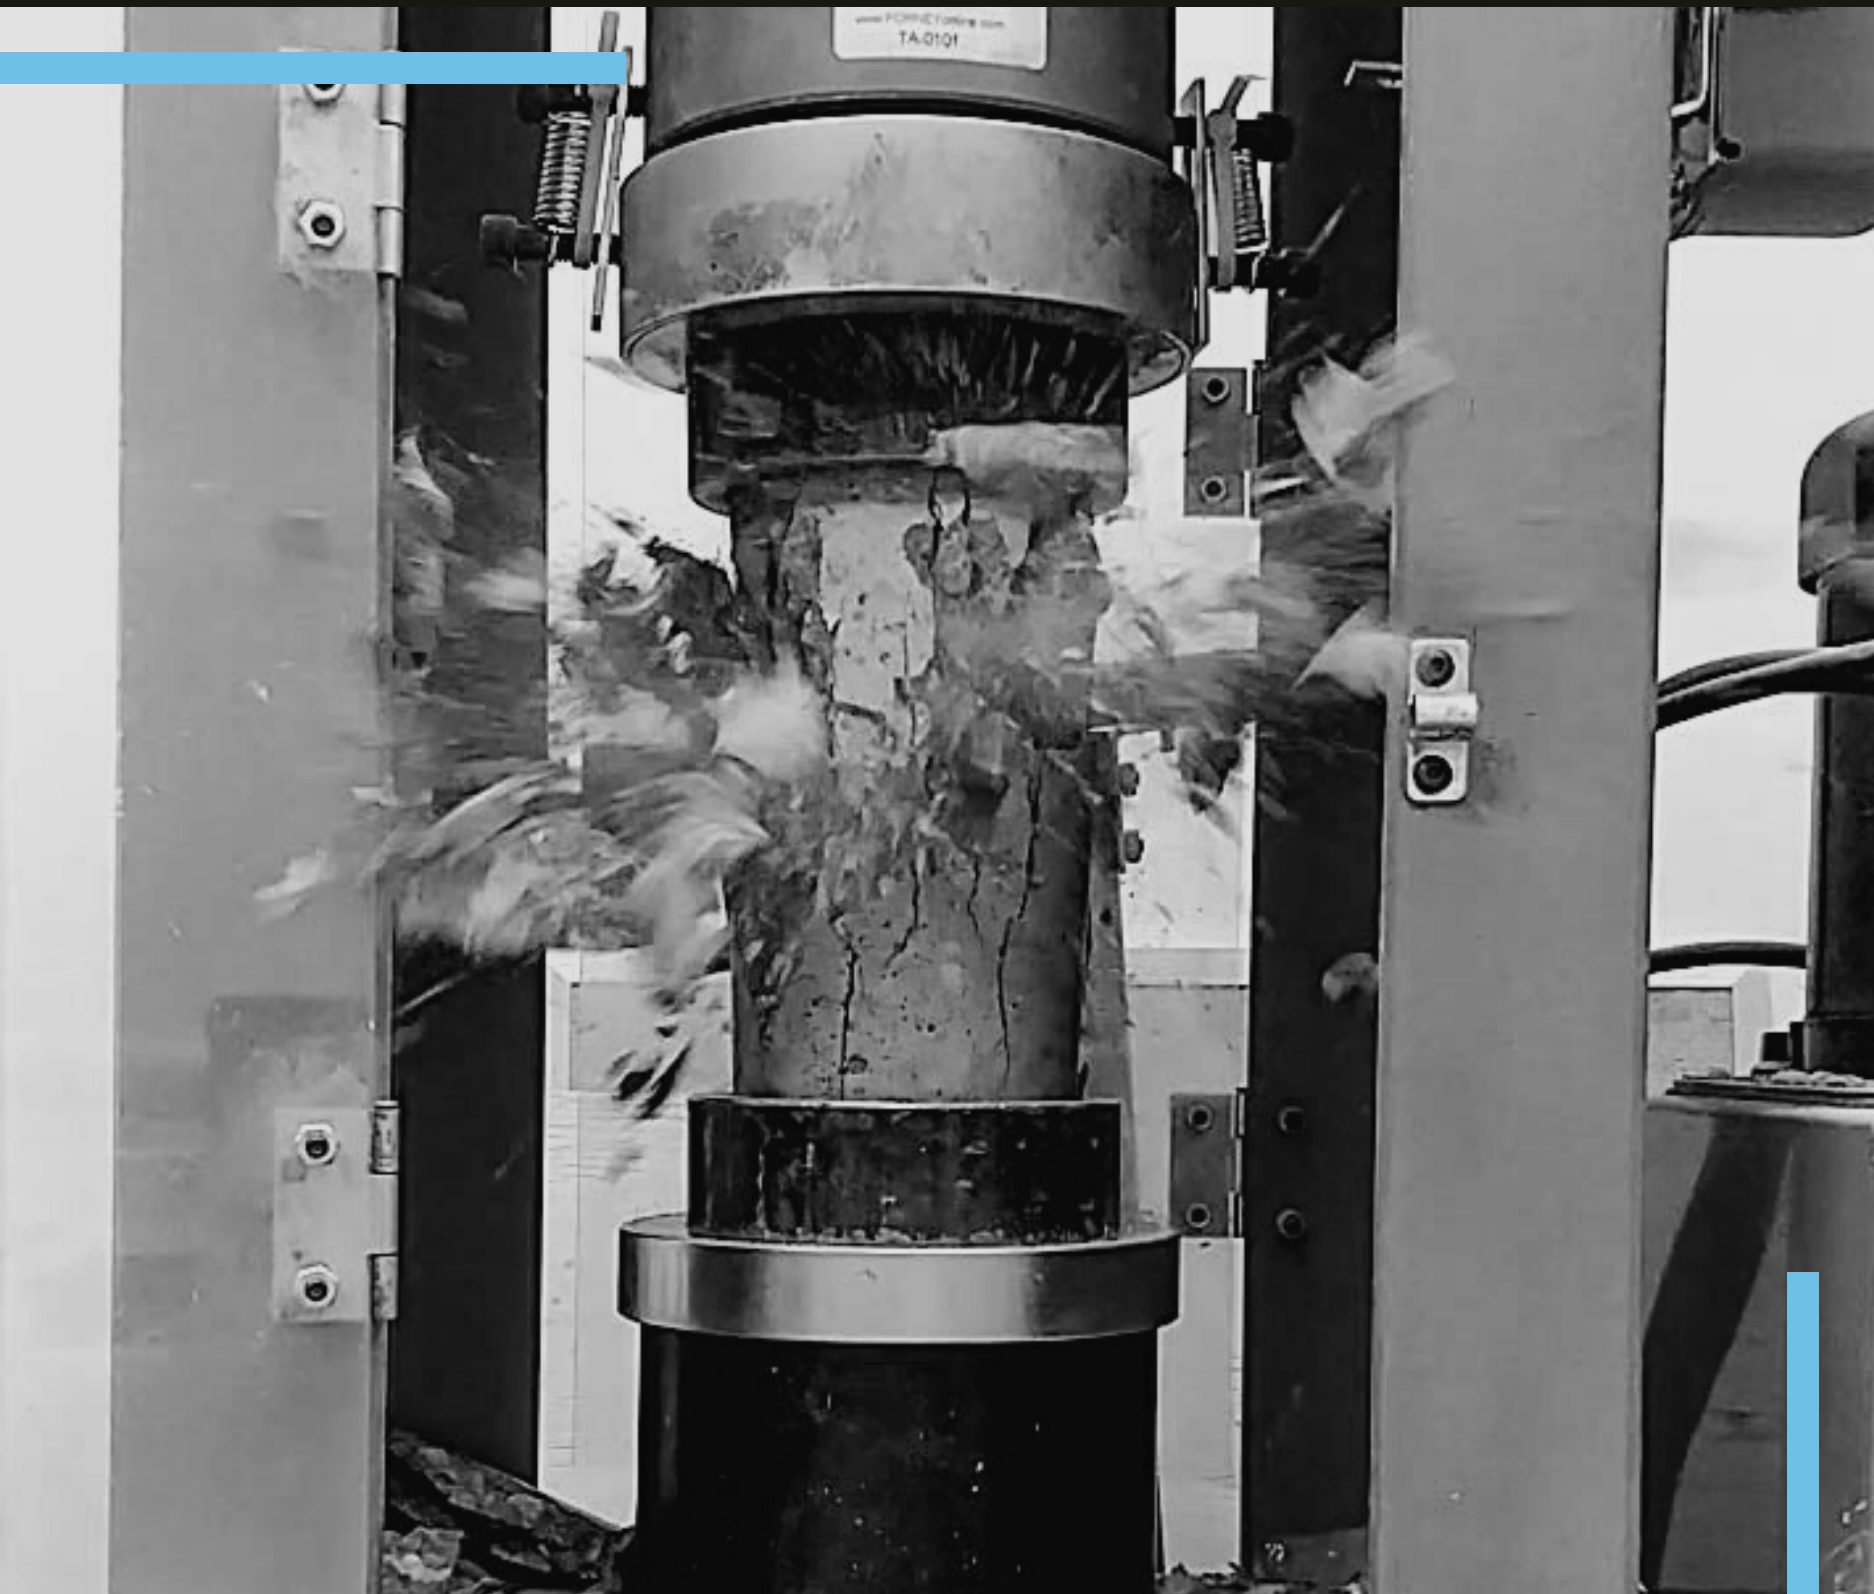

”

Leadership

MPa

Concrete strength is measured in Megapascals (**MPa**). The compressive strength of concrete is a measure of it's ability to resist the load **forced** upon it. Once cured, test cylinders taken during the concrete pour are mechanically **crushed** to determine the concretes ultimate **MPa**.

GROWTH VS. SCALE

Question: Is your business foundation strong enough to support your future growth?

Substantial vertical growth without sufficient foundational strength results in **fracture**. Then failure.

Scaling requires vertical growth with simultaneous **foundational** reinforcement.

Leaders must foster an environment where a strong cultural **MPa** is the bedrock of their company foundation.

Leadership MPa is both an independent Art and ingredient in recipe of creating future leaders.

MIX MATTERS

Ultimate foundational **MPa** strength is engineered through its Mix-Design:

- **Sand**
- **Water**
- **Cement**
- **Aggregate**

Represent the **four elements** within an organization that determine cultural foundational **MPa** strength.

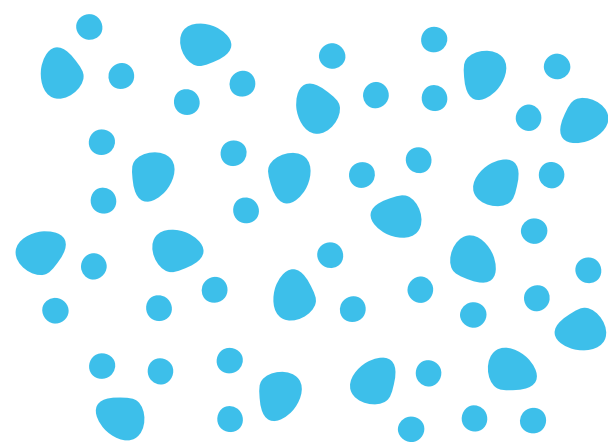

Leadership MPa is the ability to source, measure, integrate, and allow these elements to unify, and **strengthen** naturally.

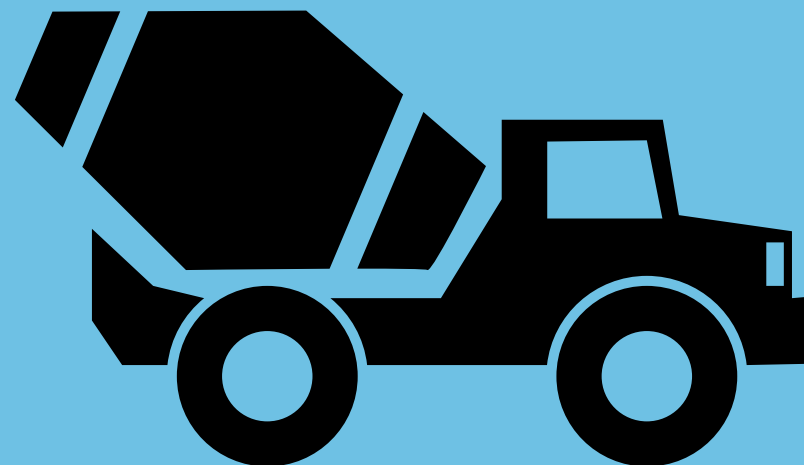

TRANSPARENCY

ATTITUDE

ACCOUNTABILITY
